

June 2020

Hello Parrish Highlanders,

Hope all is well for your family and friends in your community. Trails opened about a week & a half late or so this year. You will find some of our trails have taken some impact from the winter snow. I'm hoping we can start up on trail work by mid or late July. Because of the storms last July in Langlade, things are still being cleaned up from that massive windstorm. All maintenance of our trail system in the county came to a halt to clear county roads and secondary fire lanes, in our local towns that it hit. There are sections of our trails that need dozing & grading. I will be submitting trail areas that need work, hopefully this work can be done by freeze up this fall. I feel that we still should cancel our monthly meetings till further notice. I realize the state has opened things up, but what I have seen in the last two weeks, things are just nuts up here & over Memorial weekend. I like seeing our local businesses open & hopefully we have no secondary covid19 outbreaks from other areas of the state or out of state. Time will tell, please try to stay healthy.

Over Memorial Day weekend I received numerous calls from different areas in our ATV system, with concerns on rider's speed on **closed** county highways & township roads. Some riders have come up with their own idea that every road in Langlade county is open to them, with no speed limits. I was passed at 60mph in my vehicle on one of our county highways *not open to ATV/UTV travel*, by not one UTV but 4 UTVs. We as a club can put up all the signs we have & it will not change because most riders are not reading them. Also received a call from our county forester, Erik Rantala, a county sheriff was called out because a UTV was stuck on Cinder Grade, between Langlade county highway Q & Route 17. This trail is signed as closed & will remain closed due to high water. One quarter mile east of highway 17 on Cinder Grade trail. It is marked at Highway 17 west also at 200 feet west of the West Loop on Oneida county trail system. I know some people have noted their inconvenience due to this closure, but look at a Langlade County trail map & you should be able to work out a reroute on your own.

About our new shelter---3 bids were submitted to Langlade County Forestry about a month ago. These bids have been submitted to the insurance company, as of yet we have no response. Erik Rantala is waiting for notice on this project & insurance payout. The way things are looking will probably be late October or mid-November before we see any construction started. It is already mid-June & construction companies are booked out about 6 months. I will keep you informed on this project as I get news.

Fall ride---This year we are going to try something new for our fall ride. VP Bud Bradford has planned out a fall ride for us. We will leave on Monday at 9:30am, Sept 28<sup>th</sup> from Parrish Town Hall and ride to Mole Lake Casino for lunch, then ride to Carter Casino and stay the evening of Sept 28<sup>th</sup> at Carter. Tuesday Sept. 29<sup>th</sup> breakfast at Carter (departure time to-be-determined) ride to Mountain, WI have lunch in Mountain, return to Carter Casino for dinner & fun. Sept 30<sup>th</sup> breakfast in Carter to Argonne, WI and then return to Parrish Town Hall.
